SEEING STARS

Colour Shown: PEARL (1 colours available)

No.9 burn-outs have proved so popular in the past. So crisp, and the perfect way to introduce subtle pattern to the window at the same time as giving privacy. This year we have gone wide width - The designs are printed horizontally along double width fabric so curtains can be as wide as you wish with no joins! Seeing Stars is the same pattern of interlocking octagons, inspired by pierced stone-work screens, as the ground from Indore Garden.
